

Fashion Fabrics Guide

Cotton

Cotton is a natural fabric that is breathable, soft, and comfortable. It is commonly used in summer clothing because it absorbs moisture and allows airflow.

Silk

Silk is a luxurious natural fiber known for its smooth texture and shine. It is often used in evening gowns, bridal wear, and sarees.

Linen

Linen is a lightweight fabric made from flax fibers. It is highly breathable and ideal for hot climates.

Polyester

Polyester is a synthetic fabric that is durable and wrinkle-resistant. It is widely used in modern clothing.

Denim

Denim is a strong cotton fabric used mainly for jeans, jackets, and casual wear.
